

## ***0.a. Goal***

Goal 9: Build resilient infrastructure, promote inclusive and sustainable industrialization, enhance innovation

## ***0.b. Target***

Target 9.5: By 2030, ensure the development of information technology infrastructure to each location, especially mountainous, remote, border and island areas; ensure 100% of households have access to information and communication systems (Global target 9.c)

## ***0.c. Indicator***

Indicator 9.5.1. Percentage of population with mobile coverage

## ***0.e. Metadata update***

June 2021

## ***1.a. Organisation***

Ministry of Information and Communications

## ***1.f. Contact mail***

18 Nguyen Du, Hanoi

## ***1.g. Contact email***

banbientap@mic.gov.vn

## ***2.a. Definition and concepts***

The percentage of population with mobile coverage is the percentage of the population served in a mobile coverage area relative to the population of the country.

## ***2.c. Classifications***

The list of administrative units in Vietnam issued together with the Prime Minister's Decision No. 124/2004/QĐ-TTg dated July 8, 2004 and the changes updated by the General Statistics Office to date December 31, 2019)

## ***3.a. Data sources***

Statistical reporting mode issued by the Ministry of Information and Communications.

### ***3.d. Data release calendar***

Year.

### ***3.e. Data providers***

Ministry of Information and Communications

### ***3.f. Data compilers***

Ministry of Information and Communications

## ***4.a. Rationale***

The indicator reflects the level of information technology infrastructure development of the country. It is the basis for making policies to develop information technology infrastructure to each locality, especially mountainous, remote, border and island areas.

## ***4.c. Method of computation***

Method of computation

Công thức tính:

$$\text{Tỷ lệ dân số được phủ sóng di động (\%)} = \frac{\text{Dân số được phục vụ trong vùng phủ sóng di động}}{\text{Dân số trung bình của năm nghiên cứu}} \times 100$$

---

## ***5. Data availability and disaggregation***

Annual figures from 2016-2019

There are no published data by technology group and province/city directly under the Central Government.

(Published source: ASEAN SDG Indicators. Data from the Ministry of Information and Communications)

## ***6. Comparability/deviation from international standards***

This indicator corresponds to the global SDG target 9.c.1: Proportion of population covered by a mobile network, by technology
