2.a. Definition and concepts

Children under 5 years of age who are registered for birth is the number of children under 5 years of age from the date of birth and are granted a birth certificate in accordance with the law.

Birth registration rate of children under 5 years old shows how many children under 5 years old have birth registration.

2.c. Classifications

The list of administrative units in Vietnam issued together with the Prime Minister's Decision No. 124/2004/QĐ-TTg dated July 8, 2004 and the changes updated by the General Statistics Office to date December 31, 2019)

3.a. Data sources

Population and housing census;

- Census midterm;
- Population change and family planning survey;
- National level statistical reporting mode.

3.b. Data collection method

a) Statistical Survey

The indicator “Proportion of children under 5 years old with birth registration” is compiled from data of the Population and Housing Census (10-year cycle), the mid-term population and housing census (5-year cycle) and extrapolated from the results of the annual population change - family planning sample survey. These Census and Census are all part of the National Statistical Census Program.

b) National statistical reporting mode: Table No. 002.N/BCB-TP

3.d. Data release calendar

5 years

3.e. Data providers

General Statistics Office

3.f. Data compilers

General Statistics Office

4.a. Rationale

Indicator reflecting the birth status of children under 5 years old.

4.c. Method of computation

Method of computation

Công thức tính:

$$\text{Tỷ lệ trẻ em dưới 5 tuổi đã được đăng ký khai sinh (\%)} = \frac{\text{Số trẻ em dưới 5 tuổi đã được đăng ký khai sinh tính đến 31/12 năm báo cáo}}{\text{Số trẻ em dưới 5 tuổi tính đến 31/12 năm báo cáo}} \times 100$$

5. Data availability and disaggregation

Data available for 2011, 2014 and 2019 by region and urban/rural subdivision

(Published source: 2011, 2014- MICS survey; 2019- Population and housing census results 2019)

6. Comparability/deviation from international standards

This indicator corresponds to the global SDG target 16.9.1: Proportion of children under 5 years of age whose births have been registered with a civil authority, by age
