

## ***0.a. Goal***

Objective 8: Ensure sustainable, comprehensive and continuous economic growth; full employment, productivity and decent work for all

## ***0.b. Target***

Target 8.6: By 2030, significantly reduce the proportion of young people without work, without school or training. Proactively effectively implement the ILO Global Employment Treaty (Goal 8.6 and Global Goal 8.b)

## ***0.c. Indicator***

Indicator 8.6.1. Percentage of people aged 15-30 who are currently unemployed, out of school or without training

## ***0.e. Metadata update***

June 2021

## ***1.a. Organisation***

General Statistics Office

## ***1.f. Contact mail***

54 Nguyen Chi Thanh, Dong Da, Hanoi

## ***1.g. Contact email***

banbientap@gso.gov.vn

## ***2.a. Definition and concepts***

Percentage of people aged 15-30 who are currently unemployed, uneducated or untrained is the percentage of people aged 15-30 who are currently unemployed, uneducated or untrained in the total population 15-30 years old.

## ***2.c. Classifications***

The list of administrative units in Vietnam issued together with the Prime Minister's Decision No. 124/2004/QĐ-TTg dated July 8, 2004 and the changes updated by the General Statistics Office to date December 31, 2019).

### ***3.a. Data sources***

Labor and employment survey.

### ***3.b. Data collection method***

This is a sampling survey specified in the National Statistical Survey Program.

The Labor and Employment Survey is a sampling survey with a sample size that ensures statistical estimates for the region, Hanoi, and Ho Chi Minh City quarterly and for the province by year.

- Sampling survey using two-stage stratified sampling method:

+ Phase 1: The commune determines the number of sample areas; distribution of sample EAs based on the list of master EAs of the 2019 Population and Housing Census in each province in 2 floors for urban and rural areas; select the EAs according to the probability method proportional to the household size of the area.

+ Stage 2: Select sample households in each enumeration area. The sample was selected in phase 1 by systematic random method.

- Information collection method: Direct interview method using electronic questionnaire installed on the enumerator's tablet or smartphone. The enumerator went to each household to ask the information provider and recorded all the answers on the electronic form.

Purpose: Collecting information reflecting the current situation of labor resources and employment in order to serve the requirements of management, effective exploitation and use, and rational development of labor market resources; serving the calculation of labor and employment statistical indicators specified in the national statistical indicator system.

### ***3.d. Data release calendar***

year

### ***3.e. Data providers***

General Statistics Office

### ***3.f. Data compilers***

General Statistics Office

## ***4.a. Rationale***

Proportion of youth without employment, out of school and without training (young people's NEET ratio) provides a measure of youth out of the education system, untrained and unemployed do, and thus serve as a broader measure of potential youth labor market participants.

## ***4.c. Method of computation***

Method of computation

Công thức tính:

$$\text{Tỷ lệ người từ 15-30 tuổi hiện không có việc làm, không đi học hoặc không được đào tạo (\%)} = \frac{\text{Tổng số người từ 15-30 tuổi} - \text{Số người từ 15-30 tuổi có việc làm} - \text{Số người từ 15-30 tuổi hiện không có việc làm nhưng được đào tạo, học tập}}{\text{Tổng số người từ 15-30 tuổi}} \times 100$$

Hoặc

$$\text{Tỷ lệ người từ 15-30 tuổi hiện không có việc làm, không đi học hoặc không được đào tạo (\%)} = \frac{(\text{Số người từ 15-30 tuổi thất nghiệp} + \text{Số người từ 15-30 tuổi ngoài lực lượng lao động}) - (\text{Số người từ 15-30 tuổi thất nghiệp hiện đang đi học hoặc đào tạo} + \text{Số người từ 15-30 tuổi ngoài lực lượng lao động đang đi học hoặc đào tạo})}{\text{Tổng số người từ 15-30 tuổi}} \times 100$$

## 5. Data availability and disaggregation

Only data on the proportion of young people aged 15-24 who are unemployed or not in school every year from 2014-2019

(Published source: 2020 national report on 5-year progress towards implementation of sustainable development goals. Data from General Statistics Office)

## 6. Comparability/deviation from international standards

This indicator corresponds to the global SDG target “8.6.1. Proportion of youth (aged 15-24 years) not in education, employment or training”. The content of the Vietnamese and global indicators is the same, so the Vietnamese data warrant international comparison.
