2.a. Definition and concepts

The average import tax rate is the average tax rate applied to goods imported into Vietnam according to the List of Vietnam's imports and exports.

The average import tax rate is calculated by the weighted average method, using the weighted method based on the value of imported goods.

2.c. Classifications

Vietnam product industry system promulgated under Decision No. 43/2018/QD-TTg dated November 1, 2018 of the Prime Minister

3.a. Data sources

Page: 1 of 2

Administrative data of the Ministry of Finance.

3.d. Data release calendar

2 years

3.e. Data providers

Ministry of Finance

3.f. Data compilers

Ministry of Finance

4.a. Rationale

The indicator reflects the average tariff rate that a quantity of foreign goods is brought into the Vietnamese market.

5. Data availability and disaggregation

2020 framework data only

(Published source: 2020 national report on 5-year progress towards implementation of sustainable development goals. Data from the Ministry of Finance)
